Summary

- Proficient in developing user-interface with hands on experience in JavaScript, jQuery, & EJS and using plug-ins & libraries to implement enterprise class web applications.
- Good experience with writing robust code in Python & Django, developing reusable components.
- Well versed with design and development of presentation layer for web apps using HTML5 & CSS.
- Hands on experience with python packages like Pandas NumPy, Beautiful Soup, and Request.
- Contributed proactively and owned the designated tasks from the inception to the final product using agile methodology.
- Worked with Node & Express JS, and CSS libraries like Bootstrap and Materialize.
- Experience working with SQL & NoSQL query sets.
- Effectively used GIT as version control system.

Skill Sets

Programming Languages	Python and JavaScript
Databases	MySQL, MSSQL, & MongoDB
Frameworks	Django, Express with Node, & Selenium
Tools	GIT, MongoDB Compass, & VS Code
Libraries	Bootstrap & Materialize

Work Experience

Company: **Indus Valley Partners**

- **Software Engineer** | November 2019 – Present
Working on Recon – A fintech tool for banks and asset managers, empowering users to reconcile bank transactions with increased efficiency, accuracy and flexibility.
 - Gathered design requirements and implemented client-side components pertaining to modelling of data using various jQuery plugins, libraries alongside efficient usage of asynchronous JavaScript capabilities with minimum latency for UI reporting.
 - Worked on modules to manage workflows taking into account a variety of parameters to create a robust audit trail with multilevel signoffs using inherent Django views and developing reusable components to modify existing database objects accommodating new business logic.

Personal Projects

- **Ledge** | January 2021 – June 2021
 - Personal finance management tool with features like Ledger, Charts, Pivot Tables, Search, Statistics and Asset Management with latest values of your assets. (**Node, Express, EJS, Materialize**)
- **Stic** | March 2021 – April 2021
 - Study management tool to track study patterns. (**Node, Express, EJS, Materialize**)
- **ShaadiPlan** | January 2019 – April 2019
 - Online wedding planning service (**PHP**)

Education

- Bachelor of Engineering in Information Technology from RGPV, Bhopal (2019)
